Serene Picturesque Immersive Resorts

By Amy Duong

Borgo dei Conti Resort is Nestled in the Tranquil Countryside

The rolling hills of Umbria's Italian countryside are the setting of the new Borgo dei Conti Resort -- a luxurious experience comprised of 40 rooms and suites. It is surrounded by 40 acres of beautiful olive groves and lush forests to create an immersive and serene connection to nature.

The design is led by Milan-based studio Spagnulo and Partners, crafted with design notions that celebrate the region's heritage. It does so by utilizing rich color palettes that are inspired by notable Renaissance painters such as Pietro Perugino and Raffaello Sanzio da Urbino. This is paired perfectly with the traditional architecture that nods back to the 19th century and modern furniture.

The Borgo dei Conti Resort is comprised of many premium amenities for guests. The expansive spa offers relaxation indoors and outdoors with a wide range of food and beverage to enjoy from classic trattoria Cedri and lounge bar L'Osteria del Borgo. It also has an outdoor pool and bar for an optimal immersive tranquil experience.
