HOUSE RULES – PET ACCOMMODATION GUIDELINES

We are delighted to welcome four-legged companions, while preserving the comfort, privacy, and tranquillity of all our guests. Kindly note the following guidelines for a harmonious stay:

Admission and General Conditions

Small four-legged companions (up to 10 kg) are warmly welcomed upon request, and with the applicable daily supplement as per the hotel rate list. Their stay is graciously extended in full respect of our standards of hygiene and refined hospitality.

Pool Area and Outdoor Spaces

For reasons of safety, hygiene, and the comfort of all guests, pets are not permitted within the swimming pool. Within the surrounding pool area, pets must be gently carried when accompanying their owners to their sun loungers and are not to be left unattended or free at any time.

Access to lawn areas remains reserved.

Rooms and Furnishings

To preserve the elegance and impeccable condition of our interiors, we kindly invite guests to ensure that four-legged companions do not rest on beds or sofas.

We kindly request that pets are not left unattended in guest rooms, ensuring their wellbeing and the serenity of the environment.

Behaviour and Leash Policy

Four-legged companions are expected to be well-mannered, calm, and accustomed to a refined domestic environment.

In all common areas, a short leash (maximum length 100 cm) is kindly required, and they may not be left free at any time.

Safety

We kindly request that guests carry a muzzle, soft or rigid, to be used if deemed necessary by our team or in any circumstance requiring additional safety for guests or other four-legged companions.

Hygiene and Responsibility

We kindly ask owners to ensure that any waste is promptly collected and that their four-legged companion returns to the property in a clean condition.

Guests remain fully responsible for the wellbeing, conduct, and any damage caused by their companion to persons or property.
