01 · IN A SENTENCE

La Fiermontina | Luxury Home in *Lecce*, open *June–October*.

La Fiermontina occupies a restored 16th-century palazzo in Lecce's historic center, where honey-colored limestone facades open onto intimate courtyards and terraced gardens.

The venue commands views across the Salento Peninsula's rolling countryside while remaining steps from the city's baroque architecture and piazzas.

within a working luxury hotel.

“*We stayed for 6 nights and this is the first 5 star hotel where the hardware and software consistently delivered above and beyond. The property's tranquil aesthetic fits like a glove in the beautiful old town of Lecce without sacrificing function. The rooms are spacious and comfortable and so are the shared spaces. All the staff were attentive, friendly and made us feel like we are at home. Special mention to Alessandro who remembered the little details every morning and Aldo, who made our evening at the rooftop bar so wonderful (ask him about limoncello!). The food and beverage quality was also very high and I looked forward to returning to our room each day. Thank you for the wonderful memories. Our entire experience is a testament of the hotel's commitment to top notch hospitality.*
