

AN IMMERSIVE JOURNEY INTO THE NATURE OF MOROCCO

The Fiermontina Family Collection, following in the sentimental wake of its family roots, a 'charming eco retreat, in the land of Cadi Thami Filali, grandfather of the owners. The Fiermontina Ocean is located precisely in Khemis Sahel, in the province of Larache in Morocco. This is not just a hotel business project, but a challenge, a dream, an incredible adventure.

1.A special location

Immense deserted beaches, unspoiled nature and magical sunsets, on the northwest coast of Morocco, in the province of Larache, not yet overrun with tourists, one and a half hours from Rabat, three from Casablanca and only 45 minutes from Tangier where you can breathe pure beauty.

2. Widespread ecovillage

The Fiermontina Oceano was born where everything else seemed to die: four stone houses in the heart of Dchier and eleven suites and two charming villas on the valley floor 1 km from the village, well integrated into nature, all with large windows and a swimming pool on the terrace facing the Ocean. Available also an accessible suite for guests with reduced mobility without a pool.

3. A sustainable tourism project

The Fiermontina Oceano sheds new light on small, almost unknown villages. Thanks to this hospitality project, aqueducts and roads have been built, local cooperatives have been created, and hundreds of people have had access to education. Fifty-five families live in Dchier, and visitors who stay in the four houses built using ancestral techniques become part of the community. Villagers welcome you for the breakfast ritual and you relax in the Hammam and Cafe Maure with terraces overlooking the valleys.

4. A magnetic energy

Oceano La Fiermontina has a magnetic energy and offers an authentic vacation, with beach walks, horseback riding, yoga sessions, and plenty of local fish grilled at the Beach Club.

Are you ready for a powerful, intense and engaging experience that will leave its mark and change you forever?
